English Studies Online Nov 01 2022 **English Studies Online: Programs, Practices, Possibilities** represents a collection of essays by established teacher-scholars across English Studies who offer critical commentary on how they have worked to create and sustain high-impact online programs (majors, minors, certificates) and courses in the field. Ultimately, these chapters explore the programs and classroom practices that can help faculty across English Studies to think carefully and critically about the changes that online education affords us, the rich possibilities such courses and programs bring, and some potential problems they can introduce into our department and college ecologies. By highlighting both innovative pedagogies and hybrid methods, the authors in our collection demonstrate how we might engage these changes more productively. Divided into three interrelated conversations — practices, programs, and possibilities — the essays in this collection demonstrate some of the innovative pedagogical work going on in English departments around the United States in order to highlight how both hybrid and fully online programs in English Studies can help us to more meaningfully and purposefully enact the values of a liberal arts education. This collection serves as both a cautionary history of teaching practices and programs that have developed in English Studies and a space to support faculty and administrators in making the case for why and how humanities disciplines can be important contributors to digital teaching and learning. Contributors include Joanne Addison, William P. Banks, Lisa Beckelhimer, Dev K. Bose, Elizabeth Burrows, Amy Cicchino, Erin A. Frost, Heidi Skurat Harris, John Havard, Marcela Hebbard, Stephanie Hedge, Ashley J. Holmes, George Jensen, Karen Kuralt, Michele Griegel-McCord, Samantha McNeilly, Lilian Mina, Catrina Mitchum, Janine Morris, Michael Neal, Cynthia Nitz Ris, Rochelle Rodrigo, Cecilia Shelton, Susan Spangler, Katelyn Stark, Eric Sterling, and Richard C. Adapting Approaches and Methods to Teaching English Online Aug 30 2022 This book provides a framework for synchronous and asynchronous online language teaching. It elaborates on the key features of an online teaching setting, including the instructional media that are involved in it, their affordances and limitations, and recommends ways to adapt pedagogy to suit the online environment. To this end, the book draws on well-established language teaching methods that have been widely used in the physical classroom and puts them to the test by applying them online. This results in the emergence of an e-lectic approach that enables language teachers to be flexible and intentional in their online classroom-related decisions and combines good practices that cut across the broader methodological spectrum with personal teaching preferences, teaching style, and stakeholders' specifications always considering the capabilities of the setting and the tools currently available to teachers and learners. The book enables teachers to be critical and reflective of their own online teaching practices and equips them, via analysis of live online language sessions, with the necessary skills to confidently engage with screen layout. It also addresses the prominent issue of adapting teacher and learner identity in the online context, and examines their respective roles in online language sessions in a holistic way, offering guidance and support for the practicing online language teacher.

The Unique Technique Apr 01 2020 I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

English Studies Online Nov 28 2019 "This timely collection addresses a longstanding need for a more comprehensive treatment of online teaching in English Studies. The authors of each chapter explore matters of course or degree program design and discuss a variety of local, specific assessments of those. Their detailed scrutiny of these processes demonstrates that thoughtfully designed online education can contribute meaningfully and positively to a liberal arts education. Readers who believe there's little future for them in online education, or those still reeling from the abrupt shift to remote instruction as a result of the COVID-19 pandemic, should explore this text to learn how a deliberately integrated approach to online teaching can benefit both their students and themselves." -SUSAN LANG, The Ohio State University "This is a particularly timely publication! We've all seen what happens when a shift to online learning happens without much planning or preparation and as we are now starting to recover from that process, this collection offers excellent advice and a method for a considered response to that unanticipated shift. Any instructor or program that will continue to teach online will find these chapters full of useful information - it's a must-read especially for programs that are developing or expanding their online offerings." -DOUGLAS EYMAN, George Mason University "ENGLISH STUDIES ONLINE has much to offer for the wide range of educators involved with what might indeed collectively be called "English Studies Online." Banks and Spangler have assembled thoughtful essays to provide help, methods, and models for those administering and teaching in English studies, and these chapters provide approaches to using digital technology while never losing sight of the perspectives, philosophies, and grounding ethics that define humanistic teaching-or, as Banks and Spangler say in the introduction, the larger questions about 'how online learning spaces might serve to open up and democratize higher education.'" -SCOTT WARNOCK, Drexel University The original essays in ENGLISH STUDIES ONLINE showcase the successful programs and high-impact practices that English faculty have developed and implemented across online contexts to engage a new generation of

learners. Contributors include Joanne Addison, William P. Banks, Lisa Beckelheimer, Dev K. Bose, Elizabeth Burrows, Amy Cicchino, Erin A. Frost, Heidi Skurat Harris, John Havard, Marcela Hebbard, Stephanie Hedge, Ashley J. Holmes, George Jensen, Karen Kuralt, Michele Griegel-McCord, Samantha McNeilly, Lilian Mina, Catrina Mitchum, Janine Morris, Michael Neal, Cynthia Nitz Ris, Rochelle Rodrigo, Cecilia Shelton, Susan Spangler, Katelyn Stark, Eric Sterling, and Richard C. Quran Jun 15 2021 Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (A) uses the word "Allah" to refer to the Creator. Edition (B) uses the word "God".
