PASS: Prepare, Assist, Survive, and Succeed Jul 21 2021 Are you getting ready to take the Praxis Exam and looking for a resource to help as you study? In this guide, Williams and Mennuti, two veteran school psychologists who have been involved in the development, testing, and revision of the Praxis Exam, present their PASS model to help you study and achieve the best score possible: Prepare – Find out how to register for the exam, what to bring with you on the day of the test, how the score reporting process works, and how to get ready to study. Chapters review each content area in-depth, and numerous graphic organizers provide invaluable study tools. Useful sample questions with rationales for correct and incorrect answers to each question are included at the end of each chapter to test your knowledge. Assist – Doing your best on the Praxis depends on successful study habits. The authors show you practical ways to review the material effectively and make the most of your time. Survive – Feeling overwhelmed? Learn how to get organized, develop a study schedule, take care of yourself, and manage your anxiety. Succeed – Show-up for the test prepared and confident, and walk-out knowing you did your best! In this guide, you'll also find reflections from students who have used the PASS model to prepare for the Praxis, along with their experiences taking the exam and some of the challenges they faced and how they overcame them. An accompanying CD contains all of the graphic organizers found in the text, six practice exams with answer keys, and other helpful materials for you to use as you prepare for the exam.

The School Psychology Licensure Exam Guide, Second Edition Apr 29 2022 This guide is direct and practical. You will find out exactly where you are weakest in knowledge so that your studying can be most directed. I exceeded the NASP passing score AND the national average on my first try at the praxis 400 exam-- using this book as my 'Bible' (and I am "only" a Specialist level sch. psych). I used this book and passed with a 720. It's straightforward, and the practice test was useful -- recognized several questions on the actual exam from the practice test. This book was very helpful in preparing for the Praxis II: School Psychology Test. It not only gave general studying guidelines, but also went through bullet points of all of the most important information to study for each section of the test. Fully updated, this concise and easy-to-use guide gives students preparing to take the Praxis™ Test in School Psychology--required for licensure by most US states and the National Association of School Psychologists--an accessible content review with two complete sample exams. The CLEP Psychology Exam Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

The National Licensing Exam for Marriage and Family Therapy: an Independent Study Guide Jan 03 2020 Everything you need to know in a condensed and structured independent study guide specifically designed to prepare you in successfully passing the National Licensing Exam in Marital and Family Therapy. This innovative approach to effective and efficient preparation is tailored to the new format of the National Exam which is now far more application based than knowledge based. As other manuals contain up to 1,200 pages of text covering the entire field of Family Therapy in great detail, this author has condensed the same information down to the bare essentials of what is needed to pass the exam. This is not meant to serve as a thorough review of everything you already learned in graduate school; instead, it will review such knowledge in ways congruent to what the exam will measure. The philosophy of this manual was to teach you how to pass the exam as opposed to reviewing the textbook. The context contains a review of each primary theory to Marriage & Family Therapy as organized by the knowledge domains stated by the

Association for Marital & Family Therapy Regulatory Board. To further grasp how these theories are applied to families (keeping in line with the application-based nature of the licensing exam), the author has provided a glossary containing narratives of each approach applied to the same family vignette. To further differentiate this manual from the other available options, Part I contains an overview of the exam, test-taking strategies and study techniques to ensure that your preparations are effective and efficient. It will also move beyond theory and into the other knowledge domains covered on the exam as well as provide a thorough glossary of all key terms and primary interventions labeled by the theory in which they belong. Finally, the manual includes a Practice Exam with correct answers stated along with a rationale as to why each answer was correct or incorrect. Contents include: Part I: About the Exam, Test-Taking Strategies & Study Techniques. Part II: The History of the Field of Marriage & Family Therapy. Part III: The Theory & Practice of Marriage & Family Therapy. Part IV: Clinical Considerations & Concepts Part V: The Practice Exam Walk into test day feeling confident and prepared after completing this Independent Study Guide. An affordable and effective resource made by a Marriage & Family Therapist for Marriage & Family Therapists.
