Serious Ocarina Player - The Fundamentals of Excellent Performance Apr 01 2020 Is the ocarina easy to play? Why does my ocarina sound out of tune? Why does my ocarina have airy high notes? If you've asked yourself these questions about playing the transverse ocarina, or want to learn more about the instrument then look no further than Serious Ocarina Player. The ocarina is a wind instrument most notable for its pure ethereal tone. Quality transverse ocarinas are capable of creating everything from mournful slow melodies to highly ornamented tunes. They have a straightforward fingering system similar to a flute or tin whistle, and are fully chromatic. Most ocarinas are small, easily slipped into pocket or bag, and played whenever it takes your fancy. Yet, despite their apparent simplicity, playing the ocarina well can be difficult. Often, the intuitive approaches lead to bad technique, and there are many hidden challenges. Serious Ocarina Player introduces a solid foundation that will help you avoid common pitfalls, preparing you to play better and faster. Covered topics include: * The history and capabilities of the transverse ocarina. * Identifying ocarinas designed as serious instruments. * Single chamber vs

multichamber ocarinas. * Understanding ocarinas in different keys and octaves. * The fingering systems of single chamber and multichamber ocarinas. * Holding ocarinas and playing the high notes * Blowing an ocarina to create a clean, controlled tone. * Playing in tune, and the impact of ambient temperature. * Making the most of your practice time. * Identifying playable music, and adapting music to the ocarina. * Performing and using Classical and Celtic articulation/ornamentation. * Recording an ocarina in a studio setting. About the author: Robert Hickman has been making and playing ocarinas since 2012. He has often played in folk sessions, and studied other instruments. These provided a platform to develop good playing techniques and guide the design of his ocarinas.

Classical Concert Studies Jun 23 2019 Classical Concert Studies: A Companion to Contemporary Research and Performance is a landmark publication that maps out a new interdisciplinary field of Concert Studies, offering fresh ways of understanding the classical music concert in the twenty-first century. It brings together essays, research articles, and case studies from scholars and music professionals including musicians, music managers, and concert designers. Gathering both historical and contemporary cases, the contributors draw on approaches from sociology, ethnology, musicology, cultural studies, and other disciplines to create a rich portrait of the classical concert's past, present, and future. Based on two earlier volumes published in German under the title *Das Konzert (The Concert)*, and with a selection of new chapters written for the English edition, this companion enables students, researchers, and practitioners in the classical and contemporary music fields to understand this emerging field of research, go beyond traditional disciplinary boundaries and methodologies, and spark a renaissance for the classical concert.

Innovation and Entrepreneurship Dec 30 2019 *Innovation and Entrepreneurship 3rd Edition* is an accessible text on innovation and entrepreneurship aimed specifically at undergraduate students studying business and management studies, but also those on engineering and science degrees with management courses. The text applies key theories and research on innovation and entrepreneurship and then reviews and synthesises those theories and research to apply them in a much broader and contemporary context, including the corporate and public services, emerging technologies and economies, and sustainability and development and creating and capturing value from innovation and entrepreneurship. In this third edition the authors continue to adopt an explicit process model to help organise the material with clear links between innovation and entrepreneurship. This text has been designed to be fully integrated with the Innovation Portal at www.innovation-portal.info, which contains an extensive collection of additional resources for both lecturers and students, including teaching resources, case studies, media clips, innovation tools, seminar and assessment activities and test questions.

Guidelines for the Care and Use of Mammals in Neuroscience and Behavioral Research Sep 06 2020 Expanding on the National Research Council's Guide for the Care and Use of Laboratory Animals, this book deals specifically with mammals in neuroscience

and behavioral research laboratories. It offers flexible guidelines for the care of these animals, and guidance on adapting these guidelines to various situations without hindering the research process. *Guidelines for the Care and Use of Mammals in Neuroscience and Behavioral Research* offers a more in-depth treatment of concerns specific to these disciplines than any previous guide on animal care and use. It treats on such important subjects as: The important role that the researcher and veterinarian play in developing animal protocols. Methods for assessing and ensuring an animal's well-being. General animal-care elements as they apply to neuroscience and behavioral research, and common animal welfare challenges this research can pose. The use of professional judgment and careful interpretation of regulations and guidelines to develop performance standards ensuring animal well-being and high-quality research. *Guidelines for the Care and Use of Mammals in Neuroscience and Behavioral Research* treats the development and evaluation of animal-use protocols as a decision-making process, not just a decision. To this end, it presents the most current, in-depth information about the best practices for animal care and use, as they pertain to the intricacies of neuroscience and behavioral research.

Peacebuilding and the Arts Oct 27 2019 "Ending violent conflict requires societies to take leaps of political imagination. Artistic communities are often uniquely placed to help promote new thinking by enabling people to see things differently. In

place of conflict's binary divisions, artists are often charged with exploring the ambiguities and possibilities of the excluded middle. Yet, their role in peacebuilding remains little explored. This excellent and agenda-setting volume provides a ground-breaking look at a range of artistic practices, and the ways in which they have attempted to support peacebuilding - a must-read for all practitioners and policy-makers, and indeed other peacemakers looking for inspiration."Professor Christine Bell, FBA, Professor of Constitutional Law, Assistant Principal (Global Justice), and co-director of the Global Justice Academy, The University of Edinburgh, UK "Peacebuilding and the Arts offers an impressive and impressively comprehensive engagement with the role that visual art, music, literature, film and theatre play in building peaceful and just societies. Without idealizing the role of the arts, the authors explore their potential and limits in a wide range of cases, from Korea, Cambodia, Colombia and Northern Ireland to Uganda, Rwanda, South Africa and Israel-Palestine."Roland Bleiker, Professor of International Relations, University of Queensland, Australia, and author of *Aesthetics and World Politics* and *Visual Global Politics* "Peacebuilding and the Arts is the first publication to focus critically and comprehensively on the relations between the creative arts and peacebuilding, expanding the conventional boundaries of peacebuilding and conflict transformation to include the artist, actor, poet, novelist, dramatist, musician, dancer and film director. The sections on the visual arts, music, literature, film and theatre, include case studies from very different cultures, contexts and settings but a central theme is that the creative arts can play a unique and crucial role in the building of peaceful and just societies, with the power to transform relationships, heal wounds, and nurture compassion and empathy. *Peacebuilding and the Arts* is a vital and unique resource which will stimulate critical discussion and further research, but it will also help to refine and reframe our understanding of peacebuilding. While it will undoubtedly become mandatory reading for students of peacebuilding and the arts, its original approach and dynamic exploratory style should attract a much wider interdisciplinary audience."Professor Anna King, Professor of Religious Studies and Social Anthropology and Director of Research, Centre of Religion, Reconciliation and Peace (WCRRP), University of Winchester, UK This volume explores the relationship between peacebuilding and the arts. Through a series of original essays, authors consider some of the ways that different art forms (including film, theatre, music, literature, dance, and other forms of visual art) can contribute to the processes and practices of building peace. This book breaks new ground, by setting out fresh ways of analysing the relationship between peacebuilding and the arts. Divided into five sections on the Visual Arts, Music, Literature, Film and Theatre/Dance, over 20 authors offer conceptual overviews of each art form as well as new case studies from around the globe and critical reflections on how the arts can contribute to peacebuilding. As interest in the topic increases, no other book approaches this complex relationship in the way that *Peacebuilding and the Arts* does. By bringing together the insights of scholars and practitioners working at the intersection of the arts and peacebuilding, this book develops a series of unique, critical perspectives on the interaction of diverse art forms with a range of peacebuilding endeavours.

The Flute Book Jan 11 2021 Teachers and flutists at all levels have praised Nancy Toff's *The Flute Book*, a unique one-stop guide to the flute and its music. Organized into four main parts--The Instrument, Performance, The Music, and Repertoire Catalog--the book begins with a description of the instrument and its making, offers information on choosing and caring for a flute, sketches a history of the flute, and discusses differences between members of the flute family. In the Performance section, readers learn about breathing, tone, vibrato, articulation, technique, style, performing, and recording. In the extensive analysis of flute literature that follows, Toff places individual pieces in historical context. The book ends with a comprehensive catalog of solo and chamber repertoire, and includes appendices with fingering charts as well as lists of current flute manufacturers, repair shops, sources for flute music and books, and flute clubs and related organizations worldwide. In this Third Edition, Toff has updated the book to reflect technology's advancements--like new digital recording technology and recordings' more prevalent online availability--over the last decade. She has also accounted for new scholarship on baroque literature; recent developments such as the contrabass flute, quarter-tone flute, and various manufacturing refinements and experiments; consumers' purchase prices for flutes; and a thoroughly updated repertoire catalog and appendices.

Alfred's Group Piano for Adults Student Book 1 Jul 05 2020 The Second Edition of *Alfred's Group Piano for Adults Book 1*, includes updates inspired by numerous recommendations from group piano teachers and students. This book includes a CD-ROM containing both Audio and General MIDI Files of the 500+ accompaniments included in the text, each with an interesting and engaging arrangement coupled with the piano part. Singing the Congregation Dec 10 2020 Contemporary worship music shapes the way evangelical Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship." "Congregational music-making" is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

New Realities in Foreign Affairs Oct 08 2020 Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser

Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. American Awakening Feb 09 2021 A healthy and united America--perhaps a country more united than it has ever been--is truly possible, and it starts with us. John Kingston draws on wisdom from history, science, faith, and culture, along with his own experiences, to offer eight principles for discovering purpose, meaning, and true community. We live in the greatest peace and prosperity that the world has ever known, but Americans are feeling more division, isolation, depression, and despair than ever before. These are issues of the soul. We seem unable to find purpose and meaning. We can't find "the life that is truly life"--a vibrant and purpose-filled way of living best experienced together. From his youth, Kingston has always carried a vision for a free and united America. With an approachable and conversational style, as well as a dash of humor, Kingston draws on a diverse and compelling collection of wisdom--the parables of the Bible and the philosophy of Aristotle, the legacy of Nelson Mandela and the speeches of Abraham Lincoln, the songs of Bruce Springsteen and current studies from the best neuro and social scientists today--to remind us that there is no "them," there is only us, and we're in this together. In

American Awakening, Kingston offers eight timeless principles for breaking through this darkness and despair and cultivating a radical togetherness, both here in this country and around the globe. You'll discover the profound impact of: In-person connection Making more from less Discovering purpose Redeeming adversity Responding instead of reacting Finding your unique sense of belonging Wherever you find yourself politically or spiritually, a healthy and united America starts with you. Join the Awakening movement and let's rediscover who we are--together.

Early Jazz Nov 08 2020 This classic study of jazz by renowned composer, conductor, and musical scholar Gunther Schuller was widely acclaimed on its first publication in 1968. The first of two volumes on the history and musical contribution of jazz, it takes us from the beginnings of jazz as a distinct musical style at the turn of the century to its first great flowering in the 1930's. Schuller explores the music of the great jazz soloists of the twenties--Jelly Roll Morton, Bix Beiderbecke, Bessie Smith, Louis Armstrong, and others--and the big bands and arrangers--Fletcher Henderson, Bennie Moten, and especially Duke Ellington--placing their music in the context of the other musical cultures and languages of the 20th century and offering original analyses of many great jazz recordings. Now reissued in paper, *Early Jazz* provides a musical tour of the early American jazz world for a new generation of scholars, students, and jazz fans.

Sound Innovations for Concert Band -- Ensemble Development Sep 18 2021 *Sound Innovations: Ensemble Development* is a valuable resource for helping your students grow in their understanding and abilities as ensemble musicians. It contains 412 exercises, including more than 70 chorales by some of today's most renowned concert band composers. An assortment of exercises is grouped by key and presented in a variety of intermediate difficulty levels. Where possible, several exercises in the same category are provided to allow variety, while still accomplishing the goals of that specific type of exercise. You will notice that many exercises and chorales are clearly marked with dynamics, articulations, style, and tempo for students to practice those aspects of performance. Other exercises are intentionally left flexible for the teacher to determine how best to use them in facilitating and addressing the needs and goals of their ensemble. Whether your students are progressing through exercises to better their technical facility, or challenging their musicianship with beautiful chorales, this book can be used after any band method or as a supplement to performance music. Contains chorales composed by Roland Barrett, Andrew Boysen, Ralph Ford, Rossano Galante, Robert Sheldon, Todd Stalter, Randall Standridge, and Michael Story. This title is available in SmartMusic.

Challenge Social Innovation Jun 03 2020 In recent years, social innovation has

experienced a steep career. Numerous national governments and large organisations like the OECD, the European Commission and UNESCO have adopted the term. Social innovation basically means that people adopt new social practices in order to meet social needs in a different or more effective way. Prominent examples of the past are the Red Cross and the social welfare state or, at present, the internet 2.0 transforming our communication and cooperation schemes, requiring new management concepts, even empowering social revolutions. The traditional concept of innovation as successful new technological products needs fundamental rethinking in a society marked by knowledge and services, leading to a new and enriched paradigm of innovation. There is multiple evidence that social innovation will become of growing importance not only concerning social integration, equal opportunities and dealing with the greenhouse effects but also with regard to preserving and expanding the innovative capacity of companies and societies. While political authorities stress the social facets of social innovation, this book also encompasses its societal and systemic dimensions, collecting the scientific expertise of renowned experts and scholars from all over the world. Based on the contributions of the first world-wide science convention on social innovation from September 2011 in Vienna, the book provides an overview of scientific approaches to this still relatively new field. Forewords by Agnès HUBERT (Member of the Bureau of European Policy Advisers (BEPA) of the European Commission) and Antonella Noya (Senior Policy Analyst at OECD, manager of the OECD LEED Forum on Social Innovations)
