ICE-BEES 2021 May 04 2020 We proudly present the proceedings of 4th International Conference on Economics, Business and Economic Education Science 2021 (ICE-BEES 2021). It has focus on the innovations in economics, business, education, environment, and sustainable development. The issue of economics and sustainable development is important today. Especially in the time of Covid-19. Not only globally, but also Indonesia nationally to the local level. There are several important issues relating to this, both institutionally and the relationships between individuals and groups in supporting the agenda of sustainable development. More than 200 manuscripts were presented at this conference with 101 of them selected to be published in proceedings. We hope by this conference, discussions on the importance of sustainable development will increasingly become an important concern together. Brings better response from the government and social relations for development.

The Syntax of Spoken Indian English Apr 02 2020 This book offers an in-depth analysis of several features of spoken Indian English that are generally considered as 'typical', but have never before been studied empirically. Drawing on authentic spoken data from the International Corpus of English, Indian component, the book focuses on the domain of discourse organization and examines the form, function and distribution of invariant tags such as isn't it and no/na, non-initial existential there, focus markers only and itself, topicalization and left-dislocation. By focusing on multilingual speakers' interactions, the study demonstrates conclusively that spoken Indian English bears all the hallmarks of a vibrant contact language, testifying to a pan-South Asian 'grammar of culture' which becomes apparent in contact-induced language change in spoken Indian English. The book will be highly relevant for anyone interested in postcolonial varieties of English, contact linguistics, standardization, and discourse-pragmatic sentence structure.
