The Insider's View Nov 24 2021 In this illuminating memoir Javid Chowdhury shares his varied experiences over four decades in the IAS: the years in training when he imbibed the service's ethos and values; his initiation into the rural universe as the District Development Officer and the District Magistrate; and further on, to his handling of the infamous Bank Securities and Jain Hawala scams as Director of Enforcement and Union Revenue Secretary. With a light pen, Chowdhury describes the changing social profile and attitudes of entrants to the higher civil services; the nepotism, in many garbs, that he encountered as Establishment Officer; and the stranger-than-fiction tortuous investigations of crimes. He also offers his nuanced reflections on the dubious legacy Gujarat acquired as a result of the communal carnage in 2002. Chowdhury further examines how policymaking within government came to be whittled away under the neo-liberal theology, with key scrutiny being left to external expert think tanks and ad hoc groups. As a consequence, he perceives that public accountability came to be inordinately diffused, resulting in the roller-coaster governance that we witness today. Sharp and insightful, replete with telling anecdotes and amusing sketches of icons, colleagues and ministers, *The Insider's View* is a compelling portrait of the author, a self-confessed welfare socialist, besides being an X-ray of the innards of the bureaucracy.

Jigsaw Puzzle. Centrist View on International Political (Dis)Order May 07 2020 Essay from the year 2020 in the subject Politics - International Politics - Topic: International relations, , language: English, abstract: The essay discusses the emergence of new right wing movements in the context of international relations as evolved after the end of Cold War. The author attempts to link IR, history and political science theories to explain the phenomenon of Brexit, the last US elections and development in the Middle East. As a professionally trained historian I am inclined to permit some time to pass before writing about contemporary events. A historian is better able to analyze what has actually happened and in what direction the world is moving with a more reasoned perspective than that available immediately following an event. In 2016, the election of Donald Trump as the US president generated a plethora of analytical articles explaining the outcome. The overwhelming majority of mainstream media was not only surprised by his unexpected victory in the presidential campaign, but was equally appalled that populist rhetoric pregnant with ethnic and religious bias, accompanied with bald sexist comments, found such support in a country which for the last hundred years purported to lead the democratic world and exhibit exceptional moral superiority.

The Jumbled Jigsaw Oct 04 2022 The Jumbled Jigsaw exposes autism spectrum disorders (ASDs) not as single entities but as a combination of a whole range of often untreated, sometimes easily treatable, underlying conditions. Exploring everything from mood, anxiety, obsessive-compulsive and tic disorders to information processing and sensory perceptual difficulties, including dependency issues, identity problems and much more, Donna Williams demonstrates how a number of such conditions can combine to form a 'cluster condition' and underpin the label 'autism spectrum disorder'. Donna Williams encourages and empowers families to look at what they can do to change their child's environment to address anxiety, overload and other issues. She also gives carers the necessary information to navigate the booming autism marketplace and demand the right tools for the job. The author also challenges professionals to adopt a multi-disciplinary approach to identifying and treating the cluster conditions that make up an autism spectrum diagnosis, and to improve service delivery to those in need. The Jumbled Jigsaw is a call to modern society to take responsibility and accept diversity. It is written in a very human and user-friendly way for parents and for Auties and Aspies themselves, but it is also aimed at carers, professionals, policy-makers and service providers.

Insider Trading Apr 05 2020 The cadaver industry in Britain and the United States, its processes and profits Except for organ transplantation little is known about the variety of stuff extracted from corpses and repurposed for medicine. A single body might be disassembled to provide hundreds of products for the millions of medical treatments performed each year. Cadaver skin can be used in wound dressings, corneas used to restore sight. Parts may even be used for aesthetic enhancement, such as liquefied skin injections to smooth wrinkles. This book is a history of the nameless corpses from which cadaver stuff is extracted and the entities involved in removing, processing, and distributing it. Pfeffer goes behind the mortuary door to reveal the technical, imaginative, and sometimes underhanded practices that have facilitated the global industry of transforming human fragments into

branded convenience products. The dead have no need of cash, but money changes hands at every link of the supply chain. This book refocuses attention away from individual altruism and onto professional and corporate ethics.

The Murder of Lehman Brothers, an Insider's Look at the Global Meltdown Aug 22 2021 The aftershocks of the 2008 financial crisis still appear in the headlines most recently the government's quest to crush Moodys and S&P for failure to rate securities correctly given the risk. Were these agencies the only responsible parties? “To me, as a multi-decade, veteran Lehman investment banker, the breathtaking death of my firm appeared impossible as little as three days ahead of the bankruptcy filing. Not only did I consider our ‘master of the universe’ firm invincible, but, like my colleagues, when it became clear we were in deep trouble, it was unfathomable that the US government could misstep so foolishly as to let any bulge bracket investment bank simply fail. The worst case seemed to be the Bear Stearns route.” For the first time, Joe Tibman pulls back the kimono to share intriguing information and detail about Lehman Brothers and the economic meltdown that has never before been revealed: • How Lehman Brothers almost went under 10 years earlier but was, in a lucky turn of events, rescued from the brink of disaster when the U.S. government bailed out Mexico before it defaulted on billions of dollars in bonds? • How, in the most detailed and intimate account of Lehman after the September 11, 2001 terrorist attack, when the firm and its people were ripped from their home, Fuld's “One Firm” strategy finally took root, sweeping away the vestiges of internal war inside Lehman's own halls, turning tragedy to triumph for a newly united firm where survival and success meant much more than a payday? • What role did Paulson play? Cox? Bernanke? Greenspan? Geithner? Clinton? Phil Gramm? Congress? Summers? • No reporter has ever been able to uncover why the rating agencies rated subprime securities so high. These agencies have never come clean with a clear statement on this issue. They just fired subprime analysts. For the first time in this book, Tibman discloses the key facts behind the subprime rating disaster.

Jonestown Survivor Aug 10 2020 Laura Johnston Kohl was a teen activist working to integrate public facilities in the Washington, D.C., area. She actively fought for civil rights and free speech, and against the Vietnam War throughout the 1960s. After trying to effect change single-handedly, she found she needed more hands. She joined Peoples Temple in 1970, living and working in the progressive religious movement in both California and Guyana. A fluke saved her from the mass murders and suicides on November 18, 1978, when 913 of her beloved friends died in Jonestown. Soon after this, Synanon, a residential community, helped her gradually affirm life. In 1991, she got to work, finished her studies, and became a public school teacher. On the 20th anniversary of the deaths in Jonestown, she looked up fellow survivors of the Jonestown tragedy and they have worked to put the jigsaw puzzle together that was Peoples Temple. Her perspective has evolved as new facts have cleared up mysteries and she has had time to reflect. Her mission continues to be to acknowledge, write about, and speak about why the members joined Peoples Temple, why they went to Guyana, and who they were. She lives with her family in San Diego. Laura appreciates feedback about her book, and especially likes clarifying information or answering questions that come up as you read. Collaborative Response Oct 12 2020 A school-wide model for addressing individual needs The greatest goal of education is to ensure equity while enhancing learning and academic success for all students. And yet, it is impossible for one teacher to meet the extensive needs of all students in his or her classroom. The traditional schooling model cannot provide for this complexity and leaves educators perplexed. The solution is a collaborative approach where “every child deserves a team” to surround them with supports that recognize their strengths and challenges. Collaborative Response offers a school-wide model for addressing students' individual needs. The three fundamental components of the model are: collaborative structures and processes; data and evidence; and continuum of supports.
