The Sponsor Effect Mar 24 2022 Are you investing in the right people? Many people know the benefit of finding a sponsor--someone who goes beyond traditional mentorship to partner with a junior-level employee to help build their skills, advocate for them when opportunities arise, and open doors. But few realize that being a sponsor is just as important to career growth as finding one. According to new research from economist and thought leader Sylvia Ann Hewlett, senior executives who sponsor rising talent are 53 percent more likely to be promoted than those who don't. Similarly, middle-level managers who have proteges are 167 percent more likely to be given stretch assignments. Well-chosen proteges contribute stellar performance, steadfast loyalty, and capabilities that you, the sponsor, may lack, thus increasing how fast and how far you can go. But how do you find standout proteges, let alone develop them so that they're able to come through for you and your organization? This book has the answers you need. Combining powerful new data and rich examples drawn from in-depth interviews with leaders from companies such as Unilever, Aetna, Blizzard Entertainment, and EY, The Sponsor Effect provides a seven-step playbook for how you can become a successful sponsor. You'll learn to: Identify the right mix of proteges Include those with differing perspectives Inspire your proteges and ignite their ambition Instruct them to develop key skill sets Inspect your picks for performance and loyalty Instigate a deal, detailing the terms of a relationship Invest three ways and reap the rewards Along the way, you'll discover the enormous benefits of investing in these valuable relationships.

The Comprehensive Guide to Careers in Sports Jan 10 2021 Provides information about careers in the sports industry, including educational requirements, salary, and prospects for each profession. A Word from Our Sponsor Aug 17 2021 During the "golden age" of radio, from roughly the late 1920s until the late 1940s, advertising agencies were arguably the most important sources of radio entertainment. Most nationally broadcast programs on network radio were created, produced, written, and/or managed by advertising agencies: for example, J. Walter Thompson produced "Kraft Music Hall" for Kraft; Benton & Bowles oversaw "Show Boat" for Maxwell House Coffee; and Young & Rubicam managed "Town Hall Tonight" with comedian Fred Allen for Bristol-Myers. Yet this fact has disappeared from popular memory and receives little attention from media scholars and historians. By repositioning the advertising industry as a central agent in the development of broadcasting, author Cynthia B. Meyers challenges conventional views about the role of advertising in culture, the integration of media industries, and the role of commercialism in broadcasting history. Based largely on archival materials, A Word from Our Sponsor mines agency records from the J. Walter Thompson papers at Duke University, which include staff meeting transcriptions, memos, and account histories; agency records of BBDO, Benton & Bowles, Young & Rubicam, and N. W. Ayer; contemporaneous trade publications; and the voluminous correspondence between NBC and agency executives in the NBC Records at the Wisconsin Historical Society. Mediating between audiences' desire for entertainment and advertisers' desire for sales, admen combined "showmanship" with "salesmanship" to produce a uniquely American form of commercial culture. In recounting the history of this form, Meyers enriches and corrects our understanding not only of broadcasting history but also of advertising history, business history, and American cultural history from the 1920s to the 1940s.

Sport Facility Operations Management Nov 19 2021 This is the first book to take a truly global look at facilities operations management in the sport industry. Sports facilities management is in the national news with reports from the BBC that three 2012 Olympic venues in London are being evaluated by accountants to see whether they will deliver value for money. The current estimate of government spending on the games is £9.3billion. There is also an ongoing debate about the fate of the 80,000 seat stadium that is being constructed for the games at a cost of £500million. Sport facilities of all shapes and sizes are an ingrained part of global sport management culture. As such, it is inevitable that students who enter into the field of sport management will interact with the management and operations of a sport facility at some point during their career. This textbook provides the theoretical foundation for sport facility operations management, and is supplemented

both in the text and in the companion site containing: schematics, planning documents, sample forms, and sample ownership/ management structures. In addition, each author will infuse research and experiences from sport facilities around the world (North America; Europe; Middle East/ Asia; Australia and New Zealand) to ensure that a global perspective is at the core of this book. This book is published with the sport management lecturer and student in mind.

Sports Sponsorship Aug 29 2022 This book focuses on how the sponsorship of sports works: the costs, the goals, evaluation and selection of the property a sponsor chooses, how to activate a sponsorship, how to create a brand association, public relations and brand image possibilities. Anything is possible in a sponsorship, it is simply what the sponsor and the property can agree to during their negotiations. There is, for example, the opportunity for product category exclusivity--no competing brand at a particular location. With the audience being harder to reach because of technology, sponsorship continues to be a viable way to obtain brand exposure and better connect a brand with a consumer. With global sponsorship spending totaling more than \$51 billion, it is clear that many companies see this as an important promotional communication strategy. Instructors considering this book for use in a course may request an examination copy [here](#).

Collecting Drag Racing Model Kits Apr 12 2021 Relive the golden age of drag racing through this exhaustive volume covering the best drag racing model kits of the era. Model expert Tim Boyd, author of Collecting Muscle Car Model Kits, turned his attention to the fantastic drag racing model kits available from the late 1950s through today. Some racing model kits were actually 3-in-1 kits, where the builder assembled the drag-race version of the car in lieu of the street or custom version. Boyd starts by covering the options, collectability, variety, availability, and value of these wonderful kits, and then concentrates on the highly detailed drag racing-only kits that became available starting in the mid-1960s through today. He also shows the differences between original kits, older reproduction kits, and new reproduction kits that many enthusiasts find at swap meets and online sources today. Many of these great kits were from the 1960s, an era when building model kits was a widely popular, serious hobby, similar to video games today. Not only was it fun to build the kits but it was also a great way to learn about all the different race classes and categories because there wasn't regular TV or online coverage during that era. The artwork on those kits was fantastic, and many collectors today seek original kits largely because of it. The classes of racing covered are Gassers, Rail Dragsters, Stocks and Super Stocks, Funny Cars, Pro Stocks, Exhibition Racers, and more. Drag racing cars designed by model companies that never actually existed are also covered. Nostalgia drags are some of the most popular events around the country today. People can't get enough of these old race cars that were built in an era when variety, innovation and home building ruled the day. This book is great for modelers in general, model-kit collectors, and drag-racing fans young and old alike.

What Sponsors Want: An Inspirational Guide For Event Marketers Feb 29 2020 This book offers a practical but conceptually grounded view of the future of sponsorship. It is based on the reality that the world of sponsorship marketing is far too focused on impressions, logos, and 'money can't buy experiences' — experiences which are miraculously secured with money. The author asks questions such as: 'Do any corporate sponsors really believe that more logos are what their consumers want?' and, 'do organizations selling sponsorship believe they have nothing more valuable to sell than digital and physical signage?' In a culmination of real-life experiences, industry learnings and third-party professional research, What Sponsors Want provides expert-supported arguments to show that the traditional bronze, silver and gold packages of sponsorship belong to a model of the past. In outlining the conceptual model for successful sponsorship, this book provides five key principles of what sponsors want for you to take on your next sponsorship challenge.

Baseball, Inc. Jan 22 2022 During the second half of the twentieth century, Major League Baseball and its affiliated minor leagues evolved from local and regional entities governing the play of America's favorite pastime to national business organizations. The relocation of teams, league expansion, the advent of free agency and an influx of international players has made baseball big business, on an increasingly global scale. Focusing on the last fifty years, this work examines the past and present commercial elements of organized baseball, emphasizing the dual roles--competitive sport and profitable business--which the sport must now fulfill. Twenty-five essays cover five areas integral to the economic side of baseball: business and finance, human resources, international relations, management and leadership and sports marketing. Detailed discussions of the redistribution of revenues, the history of player unionization, aggressive global marketing, strategies of franchise owners and an evaluation of fan costs, among other topics introduce the reader to the important issues and specific challenges professional baseball faces in an increasingly crowded--yet geographically expansive--sports marketplace. The work is also indexed.

The SAGE Encyclopedia of Corporate Reputation Sep 05 2020 What creates corporate reputations and how should organizations respond? Corporate reputation is a growing research field in disciplines as diverse as communication, management, marketing, industrial and organizational psychology, and sociology. As a formal area of academic study, it is relatively young with roots in the 1980s and the emergence of specialized reputation rankings for industries, products/services, and performance dimensions and for regions. Such rankings resulted in competition between organizations and the alignment of organizational activities to qualify and improve standings in the rankings. In addition, today's changing stakeholder expectations, the growth of advocacy, demand for more disclosures and greater transparency, and globalized, mediatized environments create new challenges, pitfalls, and opportunities for organizations. Successfully engaging, dealing with, and working through reputational challenges requires an understanding of options and tools for organizational decision-making and stakeholder engagement. For the first time, the vast and important field of corporate reputation is explored in the format of an encyclopedic reference. But what you see on the field is only half the game. In this fascinating, colorful chronicle—based on hundreds of interviews and years of research and digging—John Helyar brings to vivid life the extraordinary people and dramatic events that shaped America's favorite pastime, from the dead-ball days at the turn of the century through the great strike of 1994.
