Every Book Its Reader May 18 2021 Inspired by a landmark exhibition mounted by the British Museum in 1963 to celebrate five eventful centuries of the printed word, Nicholas A. Basbanes offers a lively consideration of writings that have "made things happen" in the world, works that have both nudged the course of history and fired the imagination of countless influential people. In his fifth work to examine a specific aspect of book culture, Basbanes also asks what we can know about such figures as John Milton, Edward Gibbon, John Locke, Isaac Newton, Samuel Taylor Coleridge, John Adams, Frederick Douglass, Abraham Lincoln, Henry James, Thomas Edison, Helen Keller — even the notorious Marquis de Sade and Adolf Hitler — by knowing what they have read. He shows how books that many of these people have consulted, in some cases annotated with their marginal notes, can offer tantalizing clues to the evolution of their character and the development of their thought.

A Reader on Reading Jan 14 2021 In this major collection of his essays, Alberto Manguel, whom George Steiner has called "the Casanova of reading," argues that the activity of reading, in its broadest sense, defines our species. "We come into the world not intent on finding narrative in everything," writes Manguel. "Landscape, the skies, the faces of others, the images and words that our species create." Reading our own lives and those of others, reading the societies we live in and those that lie beyond our borders, reading the worlds that lie between the covers of a book are the essence of A Reader on Reading. The thirty-nine essays in this volume explore the crafts of reading and writing, the identity granted to us by literature, the far-reaching shadow of Jorge Luis Borges, to whom Manguel read as a young man, and the links between politics and books and between books and our bodies. The powers of censorship and intellectual curiosity, the art of translation, and those "numinous memory palaces we call libraries" also figure in this remarkable collection. For Manguel and his readers, words, in spite of everything, lend coherence to the world and offer us "a few safe places, as real as paper and as bracing as ink," to grant us room and board in our passage.

Teaching Readers (Not Reading) Sep 29 2019 Reading instruction is too often grounded in a narrowly defined "science of reading" that focuses exclusively on cognitive skills and strategies. Yet cognition is just one aspect of reading development. This book guides K–8 educators to understand and address other scientifically supported factors that influence each student's literacy learning, including metacognition, motivation and engagement, social—emotional learning, self-efficacy, and more. Peter Afflerbach uses classroom vignettes to illustrate the broad-based nature of student readers' growth, and provides concrete suggestions for instruction and assessment. The book's utility is enhanced by 1/2-of-chapter reviews and activities and a reproducible tool, the Healthy Readers Profile, which can be downloaded and printed in a convenient 8 1/2" x 11" size.

The Reader in the Book May 30 2022 The Reader in the Book is concerned with a particular aspect of the history of the book, an archeology and sociology of the use of margins and other blank spaces. One of the most commonplace aspects of old books is the fact that people wrote in them, something that, until very recently, has infuriated modern collectors and librarians. But these inscriptions constitute a significant dimension of the book's history, and what readers did to books often added to their value. Sometimes marks in books have no relation to the subject of the book, merely names, dates, prices paid; blank spaces were used for pen trials and doings sums, and flyleaves are occasionally the repository of records of various kinds. The Reader in the Book deals with that special class of books in which the text and marginalia are in intense communication with each other, in which reading constitutes an active and sometimes adversarial engagement with the book. The major examples are works that are either classics or were classics in their own time; but they are seen here as contemporaries read them, without the benefit of centuries of commentary and critical guidance. The underlying question is at what point marginalia, the legible incorporation of the work of reading into the text of the book, became a way of defacing it rather than of increasing its value—why did we want books to lose their history?

Culture Mar 16 2021 Read. Write. Oxford. Culture: A Reader for Writers presents work from a broad spectrum of writers who are adapting to cultural trends. It takes on key issues including work, consumerism, language, social media, identity, entertainment, nature, politics, technology, and war. Ranging from defending the status quo to embracing uncertainty, the writers give voice to the discomfort and hope that accompanies change. The articles embody a range of responses demonstrated by various writing styles, political leanings, and grammatical conventions from publications outside of the U.S. By showing the various ways in which people express themselves about shared issues, the reader encourages students to understand how similar we are despite cultural differences. The photo galleries nestled between chapters give shape and imagery to the subjects discussed in the readings. Developed for the freshman composition course, Culture: A Reader for Writers includes an interdisciplinary mix of public, academic, and scientific reading selections, providing students with the rhetorical knowledge and compositional skills required to participate effectively in academic and public conversations about culture and change. Culture: A Reader for Writers is part of a series of brief single-topic readers from Oxford University Press designed for today's college writing courses. Each reader in this series approaches a topic of contemporary conversation from multiple perspectives.

You Are a Reader! / You Are a Writer! Apr 28 2022 Two rhyming books in one that inspire and encourage children who are learning to read and write. You are a Reader! / You are a Writer! is a book made to be read twice, once from the front and once from the back. Read one way, children will see all the joys that reading can bring—flip it over and they'll be inspired by the imaginative possibilities of writing! With a jaunty rhyme that's great for reading aloud and a diverse cast of characters at various stages of reading and writing, there is something for everyone here. Learning to read? Scan, sound, simmer, think. You can guess words and ink. You might stumble, you might sigh. But readers practice, grow, and fly! Learning to write? Wake, watch, wonder, plot. You can weave with words and thoughts. Still staring at an empty page? Every writer knows that stage. Ask "What if?" Change your view. Try a pen—or stick—that's new. But writers read and draft, and fly! Throughout the book are suggestions for where to find inspiration for reading and writing and different ways to move on if you are discouraged. Christine Davenier's energetic illustrations add to the fun in this true celebration of what it means to be a reader and a writer, no matter how accomplished you are or aren't. Praise for Snowy Race "A girl gets to ride on her dad's giant snowplow in this delightful rhyming tale. They race through the heavy snow, but it's not clear where they're going until they arrive at the train station. . . Prince's (What Do Wheels Do All Day?) text is intriguingly spare, letting Davenier's (The First Thing My Mama Told Me) softly exuberant wintertime scenes shine." —The New York Times Rhyming, minimal text coupled with fetching illustrations by Davenier expertly convey the exhilarating drama of entering into a snowstorm as well as the comfy feelings of being in a warm house while the weather is frightful. --School Library Journal A winning, winter race. --Kirkus Reviews

A Reader for Developing Writers Oct 11 2020

Identity Nov 23 2021 "In the United States, we are constantly defining and redefining who we are to each other. As quick as we are to pull ourselves together as "Americans" in times of war or natural disaster, we also incessantly define the other, at times favorably, at other times not so much. We band together as "us" to defend our freedoms and safety from outside threats, yet we also move away from each other and maintain our differences, our uniqueness, our independence. We are a nation of commonalities, differences, natives, immigrants, and visitors. We recognize that our strength is our ability to intelligently negotiate our independence and dependence, and similarities and differences with each other. The negotiation process takes place because we are a nation of readers and writers. We inform ourselves to understand issues important to us, and we then share our thoughts with others, trying to inform or persuade them of what we believe is the correct way to understand or act in a situation. To understand our ever-changing society, the issues important to it, and take stands on issues, we by necessity must read. To get our views out there, we write. In order to read and write well, we must understand rhetorical principles, our roles and identities, and the writing processes that are the foundations of literacy and writing practices. Why learn to read and write, or become more sophisticated readers and writers? Take a moment to think about what we could not do if we could not read or write. Could we shop online? Could we read the text that helps us play a video game? Could we read or send an e-mail, a text or tweet, or post to our Facebook or Skype accounts? The answer to all of these is, No. Nothing in these environments would make any sense. Imagine trying to make a résumé or write a research paper or lab report. Our world and work possibilities would diminish substantially from how we experience them now. The more schooling we have the better and more varied are our reading and writing skills, and from these refined skills more opportunities exist for us. The processes that we go through to become highly literate are many and complex. Traditional literacies, the abilities to read and write, and digital or electronic literacies, the abilities to communicate and understand using multimodal means, are a vast network of possibilities and challenges that we must learn at increasing levels of sophistication and complexity. Throughout our years in school we will need to advance our critical reading and writing skills through study and practice. Each chapter's title in Identity: A Reader for Writers is a question about our identity, from "What's in a Name? The Role of Language and Identity" to "Where Do You Draw the Line? Privacy, Socializing, and Life without Boundaries." The second edition of Identity includes three new chapters: Chapter 6 explores readings that help us talk about gender: "Who Decides Gender? Notions of Gender & Identity," Chapter 7 "How Are Your Political Views Formed? Political Identity, Alliance, & Exclusion" helps us find common language among the complexities in identifying and taking political stances, and Chapter 8 "How Can I Become a Better Writer?" guides us to better understand what is involved in transitioning from student writers to experienced writers"--
