Twisteddoodles – The Newborn Identity Jan 15 2021 _____ Meeting a baby is like meeting someone from the internet: you got used to calling them by a weird nickname and now you need to call them by their real name; they look nothing like their photo; it's hard to believe they're real until they are actually there ... The hilarious and poignant cartoons of illustrator Twisteddoodles bring a smile to the faces of parents every single day. Her drawings brilliantly capture the unique experience of motherhood and the huge range of emotions that it brings. In this warm and witty book, Maria writes candidly about what becoming a mother has meant for her. Interspersing her words with brilliant cartoons, she delivers a marvellously entertaining snapshot of life as a modern-day parent. Her sharp observations cover everything from the sleep-deprived early days of having newborn twins, to the reality of being a working mum; from just getting out of the house to slowly getting your social life back. Upbeat and humorous, this is a wonderful book for parents and parents-to-be. 'It's hilarious ... captures the reality of motherhood and the huge range of

emotions that it brings' Ireland AM 'Part comic, part how-to guide and part memoir, with no end of warmth and charm ... For all its companionable joviality, the book is a delicate balance of lightness, ticklish candidness and forthright honesty; something that's sure to appeal to a readership of parents and nonparents alike' Irish Times Magazine 'A very honest look at pregnancy and the early days of parenting ... I think it's wonderful' Alison Curtis, Today FM 'Filled with hilarious cartoons and sharp conversations, it is an excellent snapshot of modern parenthood' Irish Country Magazine

Stigma Feb 13 2021 The dwarf, the disfigured, the blind man, the homosexual, the ex-mental patient and the member of a racial or religious minority all share one characteristic: they are all socially "abnormal", and therefore in danger of being considered less than human. Whether ordinary people react by rejection, by over-hearty acceptance or by plain embarrassment, their main concern is with such an individual's deviance, not with the whole of his personality. "Stigma" is a study of situations where normal and abnormal meet, and of the ways in which a stigmatized person can develop a more positive social and personal identity.

Raising Multiracial Children Aug 10 2020 The essential guide to parenting multiracial and multiethnic children of all ages and learning to support and celebrate their multiracial identities In a world where people are more likely to proclaim color-blindness than talk openly about race, how can we truly value, support, and celebrate our kids' identities? How can we assess our own sense of Racial Dialogue Readiness and develop a deeper understanding of the issues facing multiracial children today? Raising Multiracial Children gives caregivers the tools for exploring race with their children, offering practical guidance on how to initiate conversations; consciously foster racial identity development; discuss issues like microaggressions, intersectionality, and privilege; and intentionally cultivate a sense of belonging. It provides an overview of key issues and current topics relevant to raising multiracial children and offers strategies and developmentally appropriate milestones from infancy through adulthood. The book ends with resources and references for further learning and exploration.

Identity and Violence: The Illusion of Destiny (Issues of Our Time) Jul 01 2022 "One of the few world intellectuals on whom we may rely to make sense out of our existential confusion."—Nadine Gordimer In this sweeping philosophical work, Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred. Challenging the reductionist division of people by race, religion, and class, Sen presents an inspiring vision of a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war.

A Question of Identity Sep 22 2021 Lafferton is struggling through a bitter winter, with heavy snowfalls paralysing the town, though at least the police can be sure the ram raiders who have been targeting antique and jewellers' shops will be lying low. The biggest worry the elderly have is how to keep warm, until 82-year-old Doris Upcott is found strangled in her home, followed by the deaths of 2 other residents of the same

sheltered housing complex. Each time, the murderer has left a unique signature at the crime scene, which should help DCS Simon Serrailier, desperate to identify him before he kills again. When links are found between these and 3 similar murders elsewhere, Serrailier is obliged to cross unfamiliar territory in his search for answers.

Drawing for Product Designers Nov 12 2020 With its tutorial-based approach, this is a practical guide to both hand- and computer-drawn design. Readers will learn to think three-dimensionally and build complex design ideas that are structurally sound and visually clear. The book also illustrates how these basic skills underpin the use of computer-aided design and graphic software. While these applications assist the designer in creating physical products, architectural spaces and virtual interfaces, a basic knowledge of sketching and drawing allows the designer to fully exploit the software. Foundational chapters show how these technical skills fit into a deeper and more intuitive feeling for visualisation and representation, while featured case studies of leading designers, artists and architects illustrate the full range of different drawing options available. Hundreds of hand-drawn sketches and computer models have been specially created to demonstrate critical geometry and show how to build on basic forms and exploit principles of perspective to develop sketches into finished illustrations. There's also advice on establishing context, shading and realizing more complex forms.

Subjectivities, Identities, and Education after Neoliberalism Aug 29 2019 In this book, DeLeon presents a critique of neoliberalism and present times through a metaphor of social collapse and considers what remains once the dust has settled for a different kind of person to emerge. Engaging a variety of social, political and educational theories, along with pop culture and literature, DeLeon positions humanity at the edges of collapse and what will emerge after the fall. Engaging academic and fictional alternatives, he imagines future possibilities through a new kind of person that rises from the rubble. Questioning the foundations of empiricism, standardization and "reproducible" results that reject new forms of social and political projects from materializing, DeLeon discusses the potentials of the imagination and the ways in which it can produce alternative possibilities for our collective future when unleashed and combined with fictional narratives. Moving across multiple intellectual, philosophical, artistic, and historical traditions, he constructs a radical, interdisciplinary vision that challenges us to think about transforming our collective future(s), one in which we construct a new kind of person ready to tackle the challenges of a potentially liberatory future and what this might entail.

Forensic Human Identification Sep 30 2019 Identity theft, criminal investigations of the dead or missing, mass disasters both by natural causes and by criminal intent with this as our day to day reality, the establishment and verification of human identity has never been more important or more prominent in our society. *Brit(ish) Mar 17 2021 From Afua Hirsch - co-presenter of Samuel L. Jackson's major BBC TV series *Enslaved* - the Sunday Times bestseller that reveals the uncomfortable truth about race and identity in Britain today. You're British. Your parents are British. Your partner, your children and most of your friends are British. So why do people keep asking where you're from? We are a nation in denial about our imperial past and the racism that plagues our present. *Brit(ish)* is Afua Hirsch's personal and provocative exploration of how this came to be - and an urgent call for change. Identity Crisis Aug 02 2022 Why are we all so hostile? So quick to take offence? Truly we are living in the age of outrage. A series of apparently random murders draws amiable, old-school Detective Mick Matlock into a world of sex, politics, reality TV and a bewildering kaleidoscope of opposing identity groups. Lost in a blizzard of hashtags, his already complex investigation is further impeded by the fact that he simply doesn't 'get' a single thing about anything anymore. Meanwhile, each day another public figure confesses to having

'misspoken' and prostrates themselves before the judgement of Twitter. Begging for forgiveness, assuring the public "that is not who I am". But if nobody is who they are anymore - then who the f###k are we? Ben Elton returns with a blistering satire of the world as it fractures around us. Get ready for a roller-coaster thriller, where nothing - and no one - is off limits.

Status and Culture Oct 24 2021 "Subtly altered how I see the world." —Michelle Goldberg, *New York Times* "[*Status and Culture*] consistently posits theories I'd never previously considered that instantly feel obvious." —Chuck Klosterman, author of *The Nineties* "Why are you the way that you are? *Status and Culture* explains nearly everything about the things you choose to be—and how the society we live in takes shape in the process." —B.J. Novak, writer and actor *Solving the long-standing mysteries of culture—from the origin of our tastes and identities, to the perpetual cycles of fashions and fads—through a careful exploration of the fundamental human desire for status* All humans share a need to secure their social standing, and this universal motivation structures our behavior, forms our tastes, determines how we live, and ultimately shapes who we are. We can use status, then, to explain why some things become "cool," how stylistic innovations arise, and why there are constant changes in clothing, music, food, sports, slang, travel, hairstyles, and even dog breeds. In *Status and Culture*, W. David Marx weaves together the wisdom from history, psychology, sociology, anthropology, economics, philosophy, linguistics, semiotics, cultural theory, literary theory, art history, media studies, and neuroscience to demonstrate exactly how individual status seeking creates our cultural ecosystem. Marx examines three fundamental questions: Why do individuals cluster around arbitrary behaviors and take deep meaning from them? How do distinct styles, conventions, and sensibilities emerge? Why do we change behaviors over time and why do some behaviors stick around? The answers then provide new perspectives for understanding the seeming "weightlessness" of internet culture. *Status and Culture* is a book that will appeal to business people, students, creators, and anyone who has ever wondered why things become popular, why their own preferences change over time, and how identity plays out in contemporary society. Readers of this book will walk away with deep and lasting knowledge of the often secret rules of how culture really works.

The Bourne Identity Nov 05 2022 The man has been shot many times. Who wants to kill him, and why? The man can't remember. As he begins to learn about his past, he becomes even more confused. Does he have a future? Or will he be killed before he knows who - or what - he really is?

Double Identity Jul 29 2019 So my only protection is a kindergarten teacher and a ninety-eight-pound female minister....And they don't even believe I'm in danger. As Bethany approaches her thirteenth birthday, her parents begin acting more oddly than usual: Her mother cries constantly, and her father barely lets Bethany out of his sight. Then one morning he hustles the entire family into the car, drives across several state lines -- and leaves Bethany with an aunt she never knew existed. Bethany has no idea what's going on. She's worried that her mom and dad are running from some kind of trouble, but she can't find out because they won't tell her where they are going. Bethany's only clue is a few words she overheard her father tell her aunt Myrlie: "She doesn't know anything about Elizabeth." But Aunt Myrlie won't tell Bethany who Elizabeth is, and she won't explain why people in her small town react to Bethany as if they've seen a ghost. The mystery intensifies when Bethany gets a package from her father containing four different birth certificates from four states, with four different last names -- and thousands of dollars in cash. And when a strange man shows up asking questions, Bethany realizes she's not the only one who's desperate to unravel the secrets of her past. In this exhilarating thriller, Margaret Peterson Haddix crafts a taut story so full of twists and turns, readers will be gripped until the startling conclusion.

Finding Latinx Jun 19 2021 Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked

*in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how "Latinx" has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.*

Who Are We -- And Should It Matter in the 21st Century? Nov 24 2021 From those who insist that Barack Obama is Muslim to the European legislators who go to extraordinary lengths to ban items of clothing worn by a tiny percentage of their populations, Gary Younge shows, in this fascinating, witty, and provocative examination of the enduring legacy and obsession with identity in politics and everyday life, that how we define ourselves informs every aspect of our social, political, and personal lives. Younge -- a black British male of Caribbean descent living in Brooklyn, New York, who speaks fluent Russian and French -- travels the planet in search of answers to why identity is so combustible. From Tiger Woods's legacy to the scandal over Danish cartoons of the Prophet Mohammed, he finds that identity is inescapable, but solidarity may not be as elusive as we fear. We are more alike than we are unlike. But the way we are unlike matters. To be male in Saudi Arabia, Jewish in Israel or white in Europe confers certain powers and privileges that those with other identities do not have. In other words, identity can represent a material fact in itself. As Gary Younge demonstrates in this classic book, now featuring a new introduction,, how we define ourselves affects every part of our lives: from violence on the streets to international terrorism; from changes in our laws to whom we elect; from our personal safety to military occupations. Moving between fascinating memoir and searing analysis, from beauty contests in Ireland to the personal views of Tiger Woods, from the author's own terrifying student days in Paris to how race and gender affect one's voting choices, Gary Younge makes surprising and enlightening connections and a devastating critique of the way our society really works.

We Refuse to Forget Aug 22 2021 "An important part of American history told with a clear-eyed and forceful brilliance." —National Book Award winner Jacqueline Woodson "We Refuse to Forget reminds readers, on damn near every page, that we are collectively experiencing a brilliance we've seldom seen or imagined... We Refuse to Forget is a new standard in book-making." —Kiese Laymon, author of the bestselling Heavy: An American Memoir A landmark work of untold American history that reshapes our understanding of identity, race, and belonging In We Refuse to Forget, award-winning journalist Caleb Gayle tells the extraordinary story of the Creek Nation, a Native tribe that two centuries ago both owned slaves and accepted Black people as full citizens. Thanks to the efforts of Creek leaders like Cow Tom, a Black Creek citizen who rose to become chief, the U.S. government recognized Creek citizenship in 1866 for its Black members. Yet this equality was shredded in the 1970s when tribal leaders revoked the citizenship of Black Creeks, even those who could trace their history back generations—even to Cow Tom himself. Why did this happen? How was the U.S. government involved? And what are Cow Tom's descendants and other Black Creeks doing to regain their citizenship? These are some of the questions that Gayle explores in this provocative examination of racial and ethnic identity. By delving into the history and interviewing Black Creeks who are fighting to have their citizenship reinstated, he lays bare the racism and greed at the heart of this story. We Refuse to Forget is an eye-opening account that challenges our preconceptions of identity as it shines new light on the long shadows of white supremacy and marginalization that continue to hamper

progress for Black Americans.

Persons and Personal Identity Jun 27 2019 As persons, we are importantly different from all other creatures in the universe. But in what, exactly, does this difference consist? What kinds of entities are we, and what makes each of us the same person today that we were yesterday? Could we survive having all of our memories erased and replaced with false ones? What about if our bodies were destroyed and our brains were transplanted into android bodies, or if instead our minds were simply uploaded to computers? In this engaging and accessible introduction to these important philosophical questions, Amy Kind brings together three different areas of research: the nature of personhood, theories of personal identity over time, and the constitution of self-identity. Surveying the key contemporary theories in the philosophical literature, Kind analyzes and assesses their strengths and weaknesses. As she shows, our intuitions on these issues often pull us in different directions, making it difficult to develop an adequate general theory. Throughout her discussion, Kind seamlessly interweaves a vast array of up-to-date examples drawn from both real life and popular fiction, all of which greatly help to elucidate this central topic in metaphysics. A perfect text for readers coming to these issues for the first time, *Persons and Personal Identity* engages with some of the deepest and most important questions about human nature and our place in the world, making it a vital resource for students and researchers alike.

Identitti Jan 27 2022 *THE SELLOUT* meets *INTERIOR CHINATOWN* in this satirical debut about race, sexuality and truth. German-Polish-Indian student Nivedita's world is upended when she discovers that her beloved professor who passed for Indian was born white. Nivedita (a.k.a. Identitti), a doctoral student who blogs about race with the help of Hindu goddess Kali, is in awe of Saraswati, her outrageous superstar post-colonial and race studies tutor. But Nivedita's life and sense of self begin to unravel when it emerges that Saraswati is actually white. Hours before she learns the truth Nivedita praises her tutor in a radio interview, jeopardising her own reputation and igniting an angry backlash among her peers and online community. Dumped by her boyfriend and disowned by her friends in the uproar, Nivedita is drawn to her supervisor in search of answers not only about Saraswati's identity, but also around her own. In her thought-provoking, complex and genre-bending debut, Mithu Sanyal collages commentary from real-life intellectuals, blogs, articles, race theory and academic warfare, combining campus novel and coming-of-age drama. A darkly comedic tour de force astutely translated by Alta L. Price, *Identitti* showcases the outsized power of social media in the current debates around identity politics and the power of claiming your own voice.

You and Me: The Neuroscience of Identity Jul 21 2021 What is it that makes you distinct from me? Identity is a term much used but hard to define. For that very reason, it has long been a topic of fascination for philosophers but has been regarded with aversion by neuroscientists—until now. Susan Greenfield takes us on a journey in search of a biological interpretation of this most elusive of concepts, guiding us through the social and psychiatric perspectives and ultimately to the heart of the physical brain. Greenfield argues that as the brain adapts exquisitely to environment, the cultural challenges of the twenty-first century with its screen-based technologies mean that we are facing unprecedented changes to identity itself.

Tell Me Who You Are May 07 2020 An eye-opening exploration of race in America In this deeply inspiring book, Winona Guo and Priya Vulchi recount their experiences talking to people from all walks of life about race and identity on a cross-country tour of America. Spurred by the realization that they had nearly completed high school without hearing any substantive discussion about racism in school, the two young women deferred college admission for a year to collect first-person accounts of how racism plays out in this country every day--and often in unexpected ways. In *Tell Me Who You Are*, Guo and Vulchi reveal the lines that separate us based on race or other perceived differences and how telling our stories--and listening deeply to the stories of others--are the first and most crucial steps we can take towards negating racial inequity in our culture. Featuring interviews with over 150 Americans accompanied by their photographs, this intimate toolkit also offers a deep examination of the seeds of racism and strategies for effecting

change. This groundbreaking book will inspire readers to join Guo and Vulchi in imagining an America in which we can fully understand and appreciate who we are.

Media, Nationalism and European Identities Sep 10 2020 This volume brings together research contributions on the interface between media, identities and the public sphere in contemporary Europe. Teaching White Supremacy Dec 14 2020 A powerful exploration of the past and present arc of America's white supremacy—from the country's inception and Revolutionary years to its 19th century flashpoint of civil war; to the Civil Rights movement of the 1960s and today's Black Lives Matter. "The most profoundly original cultural history in recent memory." —Henry Louis Gates, Jr., Harvard University "Stunning, timely . . . an achievement in writing public history . . . Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms." —David W. Blight, Sterling Professor of American History, Yale University; author of the Pulitzer-prize-winning *Frederick Douglass: Prophet of Freedom* Donald Yacovone shows us the clear and damning evidence of white supremacy's deep-seated roots in our nation's educational system through a fascinating, in-depth examination of America's wide assortment of texts, from primary readers to college textbooks, from popular histories to the most influential academic scholarship. Sifting through a wealth of materials from the colonial era to today, Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national identity. Yacovone lays out the arc of America's white supremacy from the country's inception and Revolutionary War years to its nineteenth-century flashpoint of civil war to the civil rights movement of the 1960s and today's Black Lives Matter. In a stunning reappraisal, the author argues that it is the North, not the South, that bears the greater responsibility for creating the dominant strain of race theory, which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities, even as Northerners blamed the South for its legacy of slavery, segregation, and racial injustice. A major assessment of how we got to where we are today, of how white supremacy has suffused every area of American learning, from literature and science to religion, medicine, and law, and why this kind of thinking has so insidiously endured for more than three centuries.

Philosophy of Personal Identity and Multiple Personality Jul 09 2020 As witnessed by recent films such as *Fight Club* and *Identity*, our culture is obsessed with multiple personality—a phenomenon raising intriguing questions about personal identity. This study offers both a full-fledged philosophical theory of personal identity and a systematic account of multiple personality. Gunnarsson combines the methods of analytic philosophy with close hermeneutic and phenomenological readings of cases from different fields, focusing on psychiatric and psychological treatises, self-help books, biographies, and fiction. He develops an original account of personal identity (the authorial correlate theory) and offers a provocative interpretation of multiple personality: in brief, "multiples" are right about the metaphysics but wrong about the facts.

Tell Me Who You Are Apr 05 2020 "An eye-opening exploration of race in America--and the ties that actually bind us"--

Identity and Violence May 19 2021 The world may be more driven by murderous violence than ever before, yet Nobel Laureate Amartya Sen argues in this sweeping philosophical work that its brutalities are driven as much by confusion as by inescapable hatred. Sen argues in his new book that conflict and violence are sustained today, no less than the past, but by the illusion of a unique identity. Indeed, the world is increasingly taken to be divided between religions (or 'cultures' or 'civilizations'), ignoring the relevance of

other ways in which people see themselves through class, gender, profession, language, literature, science, music, morals or politics, and denying the real possibilities of reasoned choices. In *Identity and Violence*, he overturns such stereotypes as the 'the monolithic Middle East' or 'the Western Mind'. Through his penetrating investigation of such subjects as multiculturalism, fundamentalism, terrorism and globalization, he brings out the need for a clear-headed understanding of human freedom and a constructive public voice in Global civil society. The world, Sen shows, can be made to move towards peace as firmly as it has recently spiralled towards war.

The Waves: Bernard as a Pattern (and Story-) Maker and Principle Spokesman - Bernard's Search for Identity Oct 12 2020 Seminar paper from the year 2006 in the subject English Language and Literature Studies - Literature, grade: 2.3, <http://www.uni-jena.de/> (Institut für Anglistik/Amerikanistik), 7 entries in the bibliography, language: English, abstract: The experimental novel *The Waves* by Virginia Woolf was published in 1931. By describing the search for identity Woolf has the aim to show that identity consists of a variety of selves. For that reason the question "Who am I" is central to all characters in the novel. Woolf introduces a circle of friends that consists of seven people and describes the lives of the characters from childhood until they are old. Six characters, three men and three women, get voices and express themselves. The seventh, a man called Percival, does not speak, he is introduced by the other characters Susann, Jinny, Rhoda, Neville, Louis, and Bernard. The friends present themselves through their monologues, but they do not talk to each other, they just tell their own thoughts. The reader moves from consciousness to consciousness and only by the inquit formula "said [name of character]", one can recognize who is speaking. Stylistic similarities of the monologues hint that Virginia Woolf actually intended to present the consciousness of a single person and not of six different individuals. Therefore this stylistic feature serves to illustrate the concept of a multiple self. The focus of this essay will be on Bernard because he is "[...] the primary voice in the novel". His search for identity will be shown and it will be illustrated how Virginia Woolf's uses this character to illustrate the concept of an identity that consists of various elements. At the beginning Bernard's key position in the novel will be considered. Then some aspects of Bernard's search for identity will be discussed and at the end Bernard's function for the unity of the novel and of identity will be shown.

The Happiness of Blond People May 31 2022 Penguin Specials are designed to fill a gap. Written to be read over a long commute or a short journey, they are original and exclusively in digital form. This is Elif Shafak's examination of national identity. "You know, I never understand. How come their children are so quiet and well disciplined?" "Yeah," said the distressed father, his voice suddenly softer. "Blond children never cry, do they?" As Elif Shafak stands in line at the airport, she overhears a Turkish father expressing to a friend his bewilderment at the cultural differences he's experienced since immigrating to northern Europe. Is it true, she wonders, that the citizens of these countries are genuinely happier? Why do people leave their homes for other countries? And what lessons can we all learn, for the creation of truly harmonious societies, from the experiences of immigrants? In the light of the recent backlash against multiculturalism and the influx of millions of Muslims into Europe from the east, this powerful and personal essay uses the lived experience of immigrants to examine this most hotly debated subject.

Penguin Books and political change Oct 31 2019 Founded in 1935 by a young publisher disillusioned with

the class prejudices of the interwar publishing trade, Penguin Books set out to make good books available to all. The 'Penguin Specials', a series of current affairs books authored by leading intellectuals and politicians, embodied its democratising mission. Published over fifty years and often selling in vast quantities, these inexpensive paperbacks helped to shape popular ideas about subjects as varied as the welfare state, homelessness, social class and environmental decay. Using the 'Specials' as a lens through which to view Britain's changing political landscape, Dean Blackburn tells a story about the ideas that shaped post-war Britain. Between the late-1930s and the mid-1980s, Blackburn argues, Britain witnessed the emergence and eclipse of a 'meritocratic moment', at the core of which was the belief that a strong relationship between merit and reward would bring about social stability and economic efficiency. Equal opportunity and professional expertise, values embodied by the egalitarian aspirations of Penguin's publishing ethos, would be the drivers of social and economic progress. But as the social and economic crises of the 1970s took root, many contemporary thinkers and politicians cast doubt on the assumptions that informed meritocratic logic. Britain's meritocratic moment had passed.

Islandborn Dec 02 2019 From New York Times bestseller and Pulitzer Prize winner Junot Díaz comes a debut picture book about the magic of memory and the infinite power of the imagination. A 2019 Pura Belpré Honor Book for Illustration Every kid in Lola's school was from somewhere else. Hers was a school of faraway places. So when Lola's teacher asks the students to draw a picture of where their families immigrated from, all the kids are excited. Except Lola. She can't remember The Island—she left when she was just a baby. But with the help of her family and friends, and their memories—joyous, fantastical, heartbreaking, and frightening—Lola's imagination takes her on an extraordinary journey back to The Island. As she draws closer to the heart of her family's story, Lola comes to understand the truth of her abuela's words: "Just because you don't remember a place doesn't mean it's not in you." Gloriously illustrated and lyrically written, Islandborn is a celebration of creativity, diversity, and our imagination's boundless ability to connect us—to our families, to our past and to ourselves.

Titles include popular classics, exciting contemporary fiction, and thought-provoking non-fiction, introducing language learners to bestselling authors and compelling content. The eight levels of Penguin Readers follow the Common European Framework of Reference for language learning (CEFR). Exercises at the back of each Reader help language learners to practise grammar, vocabulary, and key exam skills. Before, during and after-reading questions test readers' story comprehension and develop vocabulary. Amazing Muslims Who Changed the World, a Level 3 Reader, is A2 in the CEFR framework. The text is made up of sentences with up to three clauses, introducing first conditional, past continuous and present perfect simple for general experience. It is well supported by illustrations, which appear on most pages. There are many famous Muslims in this book - for example, Malala Yousafzai, Sir Mo Farah and Muhammad Ali. But there are many more Muslim people who have changed our world. From pirate queens and athletes to warriors and mathematicians, this book is about some of these amazing Muslims.
