Voices from the Net Jun 07 2020 Hosting philosophers and rebels, historymakers and historians, the net has more friction and fewer rules than the Annual Meeting of Anarchists. Still, on the Internet stage, people from everywhere continue to rapidly develop a unique and fascinating culture of their own, complete with all the benefits, and problems, of a real-life society. In *Voices from the Net*, author Clay Shirky takes you on a tour of the communities of the net - a tour that shows you where and how they form, and how they have made the Internet the most dynamic, far-reaching online phenomenon to date. It is only in the cyberspace communities on the net that webs of words become more vital than their counterparts in the "real" world. Drawing from many arenas and many voices, the author weaves together the threads of individuality and community that gather the net into one fabric where groups of people create their own online universe. Although many of the voices in *Voices from the Net* aren't in tune, you'll find that they form a fascinating choir that is as full as the net itself.

Voices from the Mountains Oct 04 2022 A rich mosaic of photographs, words, and songs, *Voices from the Mountains* tells the turbulent story of the Appalachian South in the twentieth century. Focusing on the abuses of the coal industry and the grassroots struggle against mine owners that began in the 1960s, Guy and Candie Carawan have gathered quotations from a variety of sources; words and music to more than fifty ballads and songs, laments and satires, hymns and protests; and more than one hundred and fifty photographs of longtime Appalachian residents, their homes, their countryside, the mines they work in, and the labor battles they have fought. The "voices" that speak out in these pages range from the mountain people themselves to such well-known artists as Jean Ritchie, Hazel Dickens, Harriet Simpson Arnow, and Wendell Berry. Together they tell of the damage wrought by strip mining and the empty promises of land reclamation; the search for work and a new life in the North; the welfare rights, labor, antipoverty, and black lung movements; early days in the mines; disasters and negligence in the coal industry; and protest and change in the coal fields. Dignity and despair, poverty and perseverance, tradition and change--*Voices from the Mountains* eloquently conveys the complex panorama of modern Appalachian life.

Voices From the Street Nov 05 2022 Stuart Hadley is a young radio electronics salesman in early 1950s Oakland, California. He has what many would consider the ideal life; a nice house, a pretty wife, a decent job with prospects for advancement, but he still feels unfulfilled; something is missing from his life. Hadley is an angry young man—an artist, a dreamer, a screw-up. He tries to fill his void first with drinking, and sex, and then with religious fanaticism, but nothing seems to be working, and it is driving him crazy. He reacts to the love of his wife and the kindness of his employer with anxiety and fear. One of the earliest books that Dick ever wrote, and the only novel that has never been published, *Voices from the Street* is the story of Hadley's descent into depression and madness, and out the other side. Most known in his lifetime as a science fiction writer, Philip K. Dick is growing in reputation as an American writer whose powerful vision is an ironic reflection of the present. This novel completes the publication of his canon. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Voices from the Pandemic Mar 29 2022 From the Pulitzer Prize-winning Washington Post reporter, a powerful and cathartic portrait of a country grappling with the Covid-19 pandemic—from feeling afraid and overwhelmed to extraordinary resilient—told through voices of people from all across America The Covid-19 pandemic was a world-shattering event, affecting everyone in the nation. From its first ominous stirrings, renowned journalist Eli Saslow began interviewing a cross-section of Americans, capturing their experiences in real time: An exhausted and anguished EMT risking his life in New York City; a grocery store owner feeding his neighborhood for free in locked-down New Orleans; an overwhelmed coroner in Georgia; a Maryland restaurateur forced to close his family business after forty-six years; an Arizona teacher wrestling with her fears and her obligations to her students; rural citizens adamant that the whole thing is a hoax, and retail workers attacked for asking people to wear masks; patients struggling to breathe and doctors desperately trying to save them. Through Saslow's masterful, empathetic interviewing, we are given a kaleidoscopic picture of a people dealing with the unimaginable. These deeply personal accounts make for cathartic reading, as we see Americans at their worst, and at their resilient best.

Voices From The Other Side Jan 03 2020 Since the early 1960s, no other country has endured more acts of terrorism against civilian targets than Cuba, and the US has had its hand in much of it. This book gives a voice to the victims. Keith Bolender brings to bear the enormous impact that terrorism has had on Cuba's civilian population, with over 800 documented incidents resulting in more than 3,000 deaths and 2,000 injuries. It is Bolender's aim to articulate the atrocities the Cuban people have suffered -- which largely originate from Cuban counter-revolutionaries based in the US, often with the active help of the CIA. *Voices From The Other Side* includes first-person interviews with more than 75 Cuban citizens who have been victims of these terrorist acts, or have had family members or close friends die from the attacks. It is a unique resource for activists, journalists and students interested in Cuba's torrid relationship with the US.

Voices from the Grave May 31 2022 The dawning of peace in Northern Ireland has not brought with it much truth about what happened during 'the long war'. Very few of the paramilitary leaders on either side have ever spoken candidly about their role in that bloody conflict. But here, in a dramatic break with the unwritten laws of paramilitary omertà, two leading figures from opposing sides reveal their involvement in bombings, shootings and killings and speak frankly about how differently their wars came to an end. Brendan Hughes was a legend in the Republican movement. An 'operator', a gun-runner and mastermind of some of the most savage IRA violence of the Troubles, he was a friend and close ally of Gerry Adams and was by his side during the most brutal years of the conflict. David Ervine was the most substantial political figure to emerge from the world of Loyalist paramilitaries. A former Ulster Volunteer Force bomber and confidante of its long-time leader Gusty Spence, Ervine helped steer Loyalism's gunmen towards peace, persuading the UVF's leaders to target IRA and Sinn Féin activists and push them down the road to a ceasefire. In extensive interviews given to researchers from Boston College on condition that their stories be kept secret until after their deaths, these men spoke with astonishing openness about their turbulent, violent lives. Now their stories have been woven into a vivid narrative which provides compelling insight into a secret world and events long hidden from history. *Voices from the Grave* is the inaugural publication of the Boston College IRA/UVF Oral History Project of which Professor Thomas E. Hachey and Dr Robert O'Neill are the General Editors.

Voices from the Ruins Jan 15 2021 Where was God in the sixth-century destruction of Jerusalem? The Hebrew Bible compositions written during and around the sixth century BCE provide an illuminating glimpse into how ancient Judeans reconciled the major qualities of God—as Lord, fierce warrior, and often harsh rather than compassionate judge—with the suffering they were experiencing at the hands of the Neo-Babylonian empire, which had brutally destroyed Judah and deported its people. *Voices from the Ruins* examines the biblical texts “explicitly and directly contextualized by those catastrophic events”—Kings, Jeremiah, Ezekiel, Lamentations, and selected Psalms—to trace the rich, diverse, and often-polemical discourse over theodicy unfolding therein. Dalit Rom-Shiloni shows how the “voices from the ruins” in these texts variously justified God in the face of the rampant destruction, expressed doubt, and protested God's action (and inaction). Rather than trying to paper over the stark theological differences between the writings of these sixth-century historiographers, prophets, and poets, Rom-Shiloni emphasizes the dynamic of theological pluralism as a genuine characteristic of the Hebrew Bible. Through these avenues, and with her careful, discerning textual analysis, she provides readers with insight into how the sufferers of an ancient national catastrophe wrestled with the difficult question that has accompanied tragedies throughout history: Where was God?

Voices from the Soul Feb 02 2020 This book is a collection of poems that the author use to give people a positive outlook in life. The author also use this book as a medicine to inspire people in a way of healing them emotionally, spiritually and mentally.

The Book of Voices Oct 24 2021 In ancient Judaea, a prophet who has lost her memory channels the voices of people from the Hebrew Bible. Seeking to rediscover her true self, Elisheva discovers the unexpected nature of God. Elisheva not only brings forth the voices of the well-known people of the Bible, such as Adam, Abraham, Moses, and King David, but also those whom the Bible quickly passes over. People such as Moab (bastard child of Lot and his daughter), Zimri (who lasted one week as King of Israel), and Jushab-Hesed (a child at the rededication of the temple) speak of moments in their lives, as do women that the Bible did not bother to name: the Wife of Cain, the Daughter of Jephthah, and the Shulammite. The voices cover thousands of years of mythic history, from the creation of the universe to the end of the Prophetic Age. Angels and prophets move through space and time, travel the branching paths of possible histories, step into the world of dreams, and cross the border between life and death. Throughout the lives of those who discover, defend, and oppose the faith in one God, often guided by the workings of a hidden school of prophets, the Sisters of Sarah, they face what it means to be human and to do what's right, as they help people to be better people and help God learn to be a better God.

Voices from the Sky Sep 30 2019 First published in 1965, this brilliant, prescient book is divided into three sections: The first concerns space travel and other aspects of the new space age: how our concept of time must be modified when we travel long distances, the space seas of tomorrow, uses of the moon, how lower gravity will affect the sports of space colonists

and other fascinating ideas. The second part is about communications satellites, a field in which the author has already played the role of true prophet. The third section ranges widely over the side implications of the space age - scientific meddling, the lunatic fringe and the moral obligations of scientists.

Voices from the Farm Feb 25 2022 In 1971, at the height of the counter-culture movement, several hundred hippies drove their school buses into southern Tennessee and founded America's largest, modern-day intentional community, The Farm. In its heyday, the community was home to over 1,500 optimistic young people and the young-at-heart. Their purpose for coming together was a quest for personal growth and an alternative lifestyles that could help raise the standard of living for impoverished people around the world while conserving the planet's resources. The results of these experiments were not always predictable, but were always interesting, and created lasting bonds among community members that are still strong today. The Farm remains a vibrant, working environment for change. Why has it lasted so long? Discover the answers as members past and present recount some of their more memorable experiences. This revised edition also includes many never-before published classic images from The Farm's early years

Voices from the March on Washington Aug 10 2020 The powerful poems in this poignant collection weave together multiple voices to tell the story of the March on Washington, DC, in 1963. From the woman singing through a terrifying bus ride to DC, to the teenager who came partly because his father told him, "Don't you dare go to that march," to the young child riding above the crowd on her father's shoulders, each voice brings a unique perspective to this tale. As the characters tell their personal stories of this historic day, their chorus plunges readers into the experience of being at the march—walking shoulder-to-shoulder with strangers, hearing Martin Luther King Jr.'s famous speech, heading home inspired.

Voices from the Quarters May 19 2021 A Choice Outstanding Academic Title “Who will write about the way my people talk, the way my people sing?” Mary Ellen Doyle gathers and makes audible the voices arising from all of Ernest J. Gaines’s fiction to date—the indelible characters who inhabit the author’s lifelong inspirational territory: the bayous, cane fields, and plantation homes of Louisiana’s Pointe Coupee Parish. Beginning with the author’s upbringing and influences on River Lake plantation—amid the pecan trees and live oaks, the big house and the tenant quarters — this penetrating study offers close readings of Gaines’s uncollected short fiction, the early collection *Bloodline*, and all of his novels, including *The Autobiography of Miss Jane Pittman* and the acclaimed *A Lesson Before Dying*. Highlighting Gaines’s skill at translating oral tales into meaningful fictional forms, Doyle advances an original theory of first-person narration (“camcorder”) and traces its use throughout his work. Gaines’s unwavering focus on the utterances of “his people” continually strengthens his artistic development—the voices of the early stories fusing with those of the later novels—until Gaines earns a unique magisterial “voice,” an implied author who is black but speaks to universals. Using critical methods as eclectic as the book’s intended audience, and drawing from on-site research and interviews with Gaines’s relatives and friends, Doyle offers a variety of perspectives on Gaines’s fiction and its world that resonates so powerfully. Those who recognize Gaines as one of the finest southern writers of the last forty years will find here an accessible instrument to hear his voices more clearly than ever.

This Is the Voice Oct 31 2019 A New York Times bestselling writer explores what our unique sonic signature reveals about our species, our culture, and each one of us. Finally, a vital topic that has never had its own book gets its due. There’s no shortage of books about public speaking or language or song. But until now, there has been no book about the miracle that underlies them all—the human voice itself. And there are few writers who could take on this surprisingly vast topic with more artistry and expertise than John Colapinto. Beginning with the novel—and compelling—argument that our ability to speak is what made us the planet’s dominant species, he guides us from the voice’s beginnings in lungfish millions of years ago to its culmination in the talent of Pavoratti, Martin Luther King Jr., and Beyoncé—and each of us, every day. Along the way, he shows us why the voice is the most efficient, effective means of communication ever devised: it works in all directions, in all weathers, even in the dark, and it can be calibrated to reach one other person or thousands. He reveals why speech is the single most complex and intricate activity humans can perform. He travels up the Amazon to meet the Piraha, a reclusive tribe whose singular language, more musical than any other, can help us hear how melodic principles underpin every word we utter. He heads up to Harvard to see how professional voices are helped and healed, and he ventures out on the campaign trail to see how demagogues wield their voices as weapons. As far-reaching as this book is, much of the delight of reading it lies in how intimate it feels. Everything Colapinto tells us can be tested by our own lungs and mouths and ears and brains. He shows us that, for those who pay attention, the voice is an eloquent means of communicating not only what the speaker means, but also their mood, sexual preference, age, income, even psychological and physical illness. It overstates the case only slightly to say that anyone who talks, or sings, or listens will find a rich trove of thrills in *This Is the Voice*.

Voices from the Attic Feb 13 2021 Imagine clearing out your family attic and discovering hundreds of Civil War letters, filled with depth and insight about battles and army life, but not knowing why the letters were there. Using the resources of Ancestry.com and other sources, the author discovers how two Vermont soldiers fit into his family heritage and uses their letters to weave together their war-time story along with the stories of friends and relatives who fought by their side. *Voices From the Attic* tells the story of two brothers who witnessed and helped to make history by fighting in the Peninsula Campaign, then at South Mountain, Antietam, Fredericksburg, Chancellorsville, Gettysburg, the Wilderness, and Cedar Creek. They then helped to preserve that history through their many detailed letters that have now been re-discovered after being stored away for one and a half centuries.

The Book of Form and Emptiness Jul 09 2020 Winner of the Women’s Prize for Fiction “No one writes like Ruth Ozeki—a triumph.” —Matt Haig, New York Times bestselling author of *The Midnight Library* “Inventive, vivid, and propelled by a sense of wonder.” —TIME “If you’ve lost your way with fiction over the last year or two, let *The Book of Form and*

Emptiness light your way home.” —David Mitchell, Booker Prize-finalist author of *Cloud Atlas* A boy who hears the voices of objects all around him; a mother drowning in her possessions; and a Book that might hold the secret to saving them both—the brilliantly inventive new novel from the Booker Prize-finalist Ruth Ozeki One year after the death of his beloved musician father, thirteen-year-old Benny Oh begins to hear voices. The voices belong to the things in his house—a sneaker, a broken Christmas ornament, a piece of wilted lettuce. Although Benny doesn't understand what these things are saying, he can sense their emotional tone; some are pleasant, a gentle hum or coo, but others are snide, angry and full of pain. When his mother, Annabelle, develops a hoarding problem, the voices grow more clamorous. At first, Benny tries to ignore them, but soon the voices follow him outside the house, onto the street and at school, driving him at last to seek refuge in the silence of a large public library, where objects are well-behaved and know to speak in whispers. There, Benny discovers a strange new world. He falls in love with a mesmerizing street artist with a smug pet ferret, who uses the library as her performance space. He meets a homeless philosopher-poet, who encourages him to ask important questions and find his own voice amongst the many. And he meets his very own Book—a talking thing—who narrates Benny’s life and teaches him to listen to the things that truly matter. With its blend of sympathetic characters, riveting plot, and vibrant engagement with everything from jazz, to climate change, to our attachment to material possessions, *The Book of Form and Emptiness* is classic Ruth Ozeki—bold, wise, poignant, playful, humane and heartbreaking.

Voices from the Other World Dec 02 2019 Nobel laureate Naguib Mahfouz reaches back millennia to his homeland’s majestic past in this enchanting collection of early tales that brings the world of ancient Egypt face to face with our own times. From the Predynastic Period, where a cabal of entrenched rulers banish virtue in jealous defense of their status, to the Fifth Dynasty, where a Pharaoh returns from an extended leave to find that only his dog has remained loyal, to the twentieth century, where a mummy from the Eighteenth Dynasty awakens in fury to reproach a modern Egyptian nobleman for his arrogance, these five stories conduct timeless truths over the course of thousands of years. Summoning the power and mystery of a legendary civilization, they exemplify the artistry that has made Mahfouz among the most revered writers in world literature. Translated by Raymond Stock

Voices from the Ancestors Jan 27 2022 *Voices from the Ancestors* brings together the reflective writings and spiritual practices of Xicanx, Latinx, and Afro-Latinx womxn and male allies in the United States who seek to heal from the historical traumas of colonization by returning to ancestral traditions and knowledge. This wisdom is based on the authors’ oral traditions, research, intuitions, and lived experiences—wisdom inspired by, and created from, personal trajectories on the path to spiritual *conocimiento*, or inner spiritual inquiry. This *conocimiento* has reemerged over the last fifty years as efforts to decolonize lives, minds, spirits, and bodies have advanced. Yet this knowledge goes back many generations to the time when the ancestors understood their interconnectedness with each other, with nature, and with the sacred cosmic forces—a time when the human body was a microcosm of the universe. Reclaiming and reconstructing spirituality based on non-Western epistemologies is central to the process of decolonization, particularly in these fraught times. The wisdom offered here appears in a variety of forms—in reflective essays, poetry, prayers, specific guidelines for healing practices, communal rituals, and visual art, all meant to address life transitions and how to live holistically and with a spiritual consciousness for the challenges of the twenty-first century.

Voices from the Holocaust Aug 22 2021 The testament to a tragedy. *Voices from The Holocaust* follows the whole history of the 'Shoah' from Hitler's rise to power to the Nuremberg trials, but of course the exterminations and death camps of 'The Final Solution' take centre stage. It tells the story from the perspective of the people who were there, and were witnesses - on both sides - of the horror. While some of the eye-witnesses are well-known, such as Anne Frank, Primo Levi and Heinrich Himmler, the book includes recollections of camp inmates, SS Totenkopf guards and the British soldiers who liberated Belsen. Shocking, powerful and personal, *Voices from the Holocaust* retells history, written by those who were there.

Voices from the Titanic Nov 24 2021 This is the graphic, first-hand story of the maiden voyage and disastrous sinking of the RMS Titanic, told by the survivors themselves. The story of the sinking of the great liner has been told countless times since that fateful night on April 14, 1912, by historians, novelists, and film producers alike, but no account is as graphic or revealing as those from the people who were actually there. Through survivors' tales and contemporary newspaper reports from both sides of the Atlantic, here are eyewitness accounts full of details that range from poignant to humorous, stage by stage from the liner's glorious launch in Belfast to the somber sea burial services of those who perished on her first and only voyage. In this book, the voices of the survivors share their own stories, as well as the official records, press reports, and investigations into what went wrong that night.
