Can a Bee Sting a Bee? Oct 09 2020 In the spirit of Schott's Miscellany, The Magic of Reality, and The Dangerous Book for Boys comes Can a Bee Sting a Bee?—a smart, illuminating, essential, and utterly delightful handbook for perplexed parents and their curious children. Author Gemma Elwin Harris has lovingly compiled weighty

questions from precocious grade school children—queries that have long dumbfounded even intelligent adults—and she's gathered together a notable crew of scientists, specialists, philosophers, and writers to answer them. Authors Mary Roach and Phillip Pullman, evolutionary biologist Richard Dawkins, chef Gordon Ramsay, adventurer Bear Gryllis, and linguist Noam

Chomsky are among the top experts responding to the Big Questions from Little People, ("Do animals have feelings?", "Why can't I tickle myself?", "Who is God?") with well-known comedians, columnists, and raconteurs offering hilarious alternative answers. Miles above your average general knowledge and trivia collections, this charming compendium is a book fans of

the E.H. Gombrich classic, *A Little History of the World*, will adore.

Questions Are the Answer

Jun 28 2022 2018 Nautilus Book Awards Silver Winner
What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all

the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly

surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them. *Answers to Questions You've Never Asked* Nov 29 2019 The

#1 bestselling trivia collection with bizarre facts to entertain you for hours, from the creator of YouTube's RealLifeLore. Where can I move to so that I'm never tempted by McDonald's again? How far into the Pacific does Trump's wall stretch? If Plato came back to life, what would he think of modern democracy? Why do all empires fail? Who decides what countries are allowed to participate in the Olympics? What makes Finland so great? When you take the most absurd parts of history, science, economics, and geography, you end up with a pretty confusing picture of humanity. Why do we have borders, what's the furthest

you can get from the ocean, how do you qualify as a country, and why did Vikings wear those silly helmets? These are just a few of the strange questions that bounce around the head of YouTube sensation Joseph Pimenti, aka RealLifeLore. In his debut book, Pimenti explores the nonsensical humor of the universe with in-depth analysis of empires, economies, and ecosystems as he helps answer the ridiculous. Why, you ask? Because someone has to. Using line drawings, graphs, and charts, Pimenti not only details the absurd—he also provides explanations on why things are . . . and why they aren't. A More Beautiful Question
May 28 2022 To get the best answer-in business, in life-you have to ask the best possible

question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply,

imaginatively, and “beautifully.” In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from “How can I adapt my career in a time of constant change?” to “How can I step back from the daily rush and figure out what

really makes me happy?” By showing how to approach questioning with an open, curious mind and a willingness to work through a series of “Why,” “What if,” and “How” queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.
